WHAT CURED THE DYSPEPSIA

ADULT HEALTH PREVENTION

Council of Europe

With the Western European Powers deciding to set up a "Council of Europe" they have taken a step which has long been promised. What has hitherto been a dream now begins to take form. These powers by their united action will be believed become a major factor in the life of Europe. Headquarters will be in Strasbourg, France. The states to form the council are Britain, France, Belgium, The Netherlands and Luxembourg.

They will not be alone for other countries of Europe are to be asked to join. There are hints that Italy will join and the Italian Foreign Minister said that Italy will be "one of the founding states."

The council will consist of representative ministers from member states. It will meet in secret and an advisory assembly is to be set up to pave the way for a single parliament to represent the European democracies which will meet in public.

The Council of Europe is looked upon as a coming power centre in Europe.

Influenza on Wane in Europe

Influenza which was reported in Europe is now definitely on the wane according to latest reports which add that the outbreak did not strike the British Isles.

The disease of influenza or "flu" as it is generally known, has been reported in various parts of the world. It is a disease of the respiratory system and is caused by a virus. It is a disease of the respiratory system and is caused by a virus.

The present outbreak in Europe did not reach the violence of the 1918-19 which affected every one of those who were taken down with it in many ways and led to disorders as of the heart and kidney and to other maladies as a consequence of the infection which it left.

With the passage of years the thought of "flu" has lost much of its terror. In the interim medical and sanitary sciences have advanced greatly.

Every school boy and school girl has read in history of the "Black Death" that terrible disaster which swept over Asia, Europe and Africa with a devastating effect in the fourteenth century. It was of Oriental origin, marked by inflammation, boils, tumors of the glands and black marks on the skin. It was accompanied by an intense fever and no amount of water or liquid could quench the thirst of its victims. In Britain few if any persons were killed. It was reported in the annals that not more than a tenth part of the population remained alive after its course. It spread from England to Norway and some ships drifted ashore in Norway unguided because every person on board died of the dread disease. Scotland seems to have escaped. Twenty-five miles are supposed to have perished through that plague.

When winter's influenza in Europe has been of a rather mild type and its toll has not been heavy. People of course should exercise the usual precautions with colds and protect themselves against reaching the ordinary colds. It is a disease of the respiratory system and is caused by a virus. It is a disease of the respiratory system and is caused by a virus.

North Atlantic Military Pact

The North Atlantic military pact will shortly be an accomplished fact and will bind together Britain, France, The Netherlands, Belgium and Luxembourg. The pact will be signed in Washington. By that time it is probable that Italy will be a sharer in the responsibilities and the advantages of the pact.

The progress towards the pact has been very encouraging and has brought an ending of the world tension which has been felt.

17-ROOM PUBIC AND HIGH SCHOOL AT CHESLEY BURNS

\$400,000 Estimated
Loss, Small Insurance

Chesley, Feb. 2. (CP)—Loss estimated at \$400,000 in the five which gutted the 17-room combination public and high school in Chesley last night, leaving only blackened brick walls standing. Insurance carried amounted to only \$150,000.

"We were killed on the spot," declared Thomas Soper, chief of the 10-man volunteer fire brigade that fought the blaze, which broke out at 11:30 p.m. and was not extinguished until 1:30 a.m.

Several firesmen and volunteers, but managed to escape the building without assistance.

E. A. Dostal, member of the Chesley fire department, said that the fire broke out from cracks in public school principal H. J. Soper's office.

At about the same time smoke was noticed by players and spectators in Chesley's high school boys basketball game in the gymnasium, located in the basement of a \$65,000 addition erected 10 years ago.

St. Lawrence Project Urged To Halt Annual Wastage Of 12 Billion KWH of Power

Albany, N.Y., Feb. 2. (AP)—The New York State power authority has asked for creation of the \$400,000,000 St. Lawrence power project to halt the annual waste of over 12,000,000,000 kilowatt hours of electric energy.

Governor Thomas Dewey has asked for creation of the \$400,000,000 Ontario-New York development near Massena, but the federal administration in Washington has refused to approve it.

The authority, in its annual report to the governor and the Legislature, said the project would be second in size only to Grand Coulee dam on the Columbia River in Washington.

The report said New York's share of the project is \$200,000,000, but power development in the international area of the river would create an annual average of 4,000,000,000 kilowatt hours of electric energy.

There was a great deal of controversy over the new hydro-electric energy project, which is now being developed by the New York-Ontario state.

This need was emphasized by the fact that there is a power shortage in the project area, and by the fact that there is a power shortage in the project area, and by the fact that there is a power shortage in the project area.

BASKET FACTORY AT JORDAN BURNS \$100,000 LOSS

Frederon Hampered by Lack of Water, Fire Efforts to Save Other Buildings

St. Catharines, Feb. 2. (CP)—Fanned by a 40-mile wind, fire raged through the Corbett basketball factory near Jordan Station Tuesday night, gutting the \$100,000 factory in a blaze of glowing embers and twisted metal.

Ignited by a lack of water, firemen used their feeble supply to save nearby houses and other buildings.

Thousands of people gathered in front of the burning factory, and many were seen climbing on the roof of the burning building to get a better view of the fire.

It was not until 1:30 a.m. that the fire was brought under control.

IN MEMORIAM

SPRY—in loving memory of our dear daughter, Ruth (Danford) Spry, who passed away Feb. 2nd, 1902. When evening shades are falling, And we all in quiet slumber, To our hearts there comes a longing, It the only could come home.

You knew that now was coming,
 That the hills were hard to climb,
 So he closed her weary eyelids,
 And whispered, peace be thine.
 Sadly missed by mom, dad, brothers
 and sister.

A day of remembrance softly recalled
Without farewell she left us all,
God knew that she was suffering,
That the hills were hard to climb.

So He closed her weary eyelids,
And whispered "peace be thine."
To be with us in the same old way,
Would be our dearest wish today.
Ever remembered and sadly missed
by Aunt Lena and Uncle Walt.

Western Germany Ready to Greet Foreign Tourists in Great Numbers

Frankfurt, Feb. 2 (AP)—Western Germany is hanging out the welcome mat to foreign tourists for the first time since the war.

Allied and German officials are planning on an influx of tourists this winter to Bavaria, the Black Forest and the Rhineland. They expect the problem to be easily solved in 1939, when the Wagner trade fairs of Bayreuth and the pension play at Oberammergau will be resumed.

The stumbling block to tourists since the war has been chiefly a lack of hotel space and transportation.

German officials, in co-operation with the joint expert committee, consisting of Allied representatives of the American, British and French governments, are working to build for tourists in Germany "with money to be spent and counted." All are well stocked with a variety of food. "Tourists to Germany will be required to pay in dollar travelers' checks or in the local rate of exchange."

South Africa Needs 10,000 More Nurses

Cape Town, South Africa, Feb. 2 (AP)—South Africa needs some 10,000 more nurses and midwives and many venereal disease specialists to help meet the short-

A report of a survey by the National Executive Committee of the National War Memorial Foundation shows that the biggest problem is the provision of nurses for the non-European community.

The report says that if the shortage of white nurses is to be overcome, additional non-European nurses must be trained in addition to the Negroes.

"We need about 25,000 and midwives for adequate health services and we probably have some 13,000," says the report, compiled from information supplied by hospitals and nursing authorities throughout South Africa.

The main reason given for the shortage is the lack of money for training and the shortage of nurses in training as only 47 per cent of nursing recruits qualify and stay in the profession; and the lack of secondary school education for non-European girls which would qualify them in building up the numbers in the profession.

One student nurse comes from over 17,000 non-European girls, against 800 among Europeans.

changed his views on family allowances. He charged that Mr. Drew, as Premier of Ontario in 1944, had said that the Ontario government would "do everything in its power to defeat the 'iniquitous' family allowances bill."

Now, said Mr. Beaudry, Mr. Drew and his party were in favor of revising family allowances as follows:

Three children as-called monopolies and said various governmental investigations of monopolies and their activities. There was no doubt that they existed and continued to fix prices to the disadvantage of the people.

Some monopolies and cartels were under one management and were controlled by agreements between groups. The agreements often were unwritten, and it was difficult to prosecute their members.

Steel companies were behind the "open court" policy. They raised the prices of steel and this brought price increases in every article of commerce.

Pop was speaking to himself with a satisfied expression, and I was sure that he was right. The best cigars are the ones made from the leaves of the tobacco plant.

"Nothing could be truer," pop said, and ma said, Did you ever go to Havana called Earl of Queensberry?

"I say I have, pop said. I've even smoked them from time to time on my luckier moments, but I don't like them. I don't like you a whole ball box of 25.

"You're not going to get them," pop said, and ma said, You're not going to get them either. I don't like them either. I don't like you a whole idea, mean I got them to me."

A Gigantic Task

Heavy transport planes flying to the stricken areas of American western states where human beings and animals have been the victims of the worst natural in decades are a fair picture of the work of invention rising to the occasion of the hour in carrying relief to men and beasts. The vast numbers of the storm stricken from the west coast of Canada reveal a situation which nothing but modern invention can help so effectively through the use of planes in what is becoming known as "the hay lift."

Flows are digging out the snow-blacked roads to open up lines of land transportation to try and save the stricken cattle and sheep on the vast ranges of the West.

This is a task in which man will struggle with every kind of strength he possesses. It is a task of those which does indicate the inborn worth of humanity and holds out the brightest hope for the human race. What man will do in a time of suffering, of man and beast, the world will know—no man could say a human being can react and shows the greatness that is in him. An immense effort is being thrown into the relief of stricken people and creatures. It is such courage and fortitude that makes man proud of his race.

LOOKING BACKWARDS

CLEANINGS FROM OUR FILES OF BY-GONE YEARS

30 YEARS AGO
Feb. 24, 1894
A grim prediction to prevent World War being being turned to the United States, it has been under experiment for several years with good results and it is now established it is a wonderful thing for the human race.

Mr. Mitchell Callaghan of Hamilton is spending a few days in town.

Mr. J. H. McMillan, George St. H. has returned home from Kingston where he visited Mr. and Mrs. Cecil McMillan.

Miss Bess Sherman has returned home from Toronto where she spent a few days.

When it came time to break up, it was found that fewer than one fourth had brought along overalls or umbrellas.

Cleveland Plain Dealer describes forecasters against the howls of the superstitious "that not the forecasters believe their weather predictions." The newspaper says: "We who honor and respect these gentlemen, will yell back that it came true—no matter who believed it or not."

THE OLD ADAGE

On February second some adults as well as many children drew a sort of fairy tale as they thought of the bear and the woodchuck and said: "The old adage is that the wilds crawl out of their caves, caverns or holes, at that time to get a look at the wintry world. All the stories of the nursery world are conjured up, and even the grown-up tales delight in seeing the creature, the prophetic bear or woodchuck who were supposed to be the weather forecasters of another age."

One of the happiest movies of the movies has been produced in these times those delightful pictures of the animal world which please young and old for the old are in heart very close to the believing children. Who does not think of the old adage, "sympathize with the poor animals out in the cold and wet and pleased when it is realized that winter is just half over and that when the next six weeks are past there will be no more to be spoken of."

The innocence of that make-believe world is appealing to everyone and is a healthy hint of the future that lies ahead for the human race, in thought of the animals and to see if there are any shadows about it one of those possessions of the human mind that clings to the memories of ancient lore as one of the rich pleasures of life, just as a book of fairy stories will charm every type of man or woman and certainly every child.

Man has always liked to think of talking animals and that they are imaginary play. That's why they like the adage of truth and the woodchuck or groundhog. Man likes this fairy story attitude even to the weather at this time and could only wish that the old adage were true.

So it looks as if man and child will continue to summer on up in their minds the proverbial bear and woodchuck growing every year in the minds of the fairer fairy story viewpoint. That is natural and movie producers have created some amazing animal stories with that eternal charm that pleases the very youngest to the very old.

Anyway Canadians Day, 1940, entered with a wintry spirit, the sun shone at noon and in the afternoon there were traces of snow in the air.

CONFLICT

A headache was the lady's
And to a rage she
Saw, but what she didn't
know
The doctor was troubled,
The lady thought that she
wasn't
Allowed attention
But we made that none
of us
What's on each other's
mind.

A headache is a fretting
And to a rage she
Saw, but what she didn't
know
The doctor was troubled,
The lady thought that she
wasn't
Allowed attention
But we made that none
of us
What's on each other's
mind.

Oh lady, if you could have
The hurt that ailed her
There is no doubt you would
have found it more
More patience than a
woman.

Date of Election

Few Months Away
Says St. Laurent

Ottawa, Feb. 23 (CP)—Prime Minister St. Laurent Wednesday said that the date of a general election is receiving all the attention it deserves.

He said that if the election was held in the summer it might not be worth the trouble.

"However," he added, "it would seem that there are three or four months more, three or four months more, and then the election should be held."

He said that the date of a general election is receiving all the attention it deserves.

U.S. Will Not Allow "Peace Manoeuvre" to Disrupt Unity Priest Suffocated, 30 Persons Escape Sanitarium Fire

Two Nurses Make Heroic But Fruitless Effort to Rescue

**CANADIAN-BRED
BATTLE MAKING
MARK IN WORLD**

St. Joseph's Hospital, Mich., Feb. 3. — (AP)—A Russian Catholic priest was killed while more than 30 other persons fled from a fire which swept St. Joseph's Sanitarium here today.

St. Joseph's Hospital, which administers the adjacent St. Joseph's nursing home, was destroyed by a fire which broke out at 3:30 a.m. and 25 patients and five nurses escaped into the near-zero cold, but died at the hospital.

The fire was brought under control at 5:30 a.m. All the fire equipment, the little city of the lake, limited the damage to an estimated \$150,000.

SHIPPED BATTLESHIP NEARLY TO HAVE SEVEN IN ISLAND'S MARINE, N.Y.

Seven last-battle ships of Long Beach, N.Y., were on their way today that 25-year-old Capt. Charles Laue, of Long Beach, "were his what it takes." This photo shows the shattered wreck of the fishing dory, Maria Irene, where she went aground into towering surf on the beach, and the bodies of seven sailors who were killed in the wreck of the ship.

Canada's Dollar-Saving Austerity Program Brings An Upsurge in Smuggling

Ottawa, Feb. 3 (CP)—Smuggling has become a major addition here to the R.C.M.P. hunt.

The government's dollar-saving austerity program, with its ban on imports of United States goods, has brought an upsurge in smuggling. The R.C.M.P. has been alerted to the fact that the program and several measures have been implemented to tighten the law.

The R.C.M.P. in its 1947-48 report in the Commons report tabled in the Commons yesterday, said the dollar-saving program, which the government introduced to improve the balance of payments, has brought an upsurge in smuggling. The R.C.M.P. has been alerted to the fact that the program and several measures have been implemented to tighten the law.

TODAY'S CROSS-WORD PUZZLE

Little Benny's Note Book

Saturday morning was in her room trying to make things look even better, and I said, 'Hey, ma, can I go to the special at Westerns show at the Little Grand this afternoon?' Some day you'll learn in the school of hard knocks that life doesn't consist exclusively of making and being given, ma said. You'll suddenly find out that there's more to life. In other words it costs money and you'll have to work for it, the said, and I said, 'Maybe somebody will leave me a big fortune in their will. It must be somebody around here by present indications and future prophecies, ma said, and

said, 'Well, okay, ma, I'll do some work around here this morning. What do you want me to do for you, ma?' I said, 'Oh, nothing helpful, it's the principal of the thing, ma said, and I said, 'I know what, ma. I'll make you a lot of money to hand around yesterday when the bridge ladies play here. Think of all the money and expense I'll save you. It's more about it, ma? I said, 'I'm afraid not, though no doubt it's quite a brilliant idea, ma said, and I said, 'Then why are you afraid not, ma? One reason is, it would be stolen before Wednesday, and I went into the other reason, ma said, and I said, 'Then G. M., suppose I take an extra bath? That would seem like very, G. M. said, 'I'm going to mix some thing for a cake this morning, why don't you suggest licking the bowl? ma

and I said, 'G. M., ma are you serious? What do you think? ma said, 'Meaning no, and the result was March when pouters will be able I fixed up my room and allowed to forest Dutch, British and my Sunday shoes.

DREW SLAMS BACK AT HIS CRITICS IN THE COMMONS

Defends Himself Against Several Govt. Charges

Ottawa, Feb. 5. (CP)—Under mounting Liberal fire for his role in the recent election, George Drew slammed back at his critics in the Commons last night.

In an unexpected re-entry into the throng of debate that drew the House late tonight, the Progressive Conservative leader defended himself against a succession of government charges on his attitude on the Atlantic pact, Dominion-Provincial relations and fiscal allowances.

His brilliant planks into the throng of debate late tonight were met by a succession of questions from the opposition.

It was the Commons first night of the Atlantic pact for which Mr. Drew, former Ontario premier, was noted before he came to the federal.

He needed further in the day by External Affairs Minister Pearson on the ground Progressive Conservatives had not discussed the Atlantic pact at this session.

Mr. Drew said that the question of guilt is on offense and the result.

He said the best I could for the day in this Commons with many members in "world history" and "world peace" was to quote Mr. Drew on the next course.

Moscow Proposals Should Be Treated With 'Cool Analysis' Rather Than 'Easy Optimism'

—Pearson

Ottawa, Feb. 5. (CP)—Pearson today responded to a warning from External Affairs Minister George Drew that the Moscow proposals should be treated with "cool analysis" rather than "easy optimism."

He suggested the official opposition was "playing politics with the issue" and that the government was "playing politics with the issue."

BUILDING STRIDE IN MANITOBA THAT OF 1948

Alone Total \$30 Million

By FORBES BRIDGE
(Canadian Press Business Editor)

Manitoba is hitting a building stride none double that of last year with housing in the lead. Whether or not it continues that way remains to be seen, but present indications are that it will keep up with the record pace set last year.

Manitoba Building Reports, compiled, states that January construction was \$7,732,640 compared with \$34,124,400 in January last year.

That figure was up, as follows: (1) Residential in brackets, residential \$30,000,000 (\$10,000,000); industrial \$10,000,000 (\$10,000,000); commercial \$10,000,000 (\$10,000,000).

Polish Govt. Offers Scores For Plot Activities

Report Says Time Bomb Found Near Govt. Building

WARSAW, Feb. 5. (AP)—Polish police today announced the arrest of several scores of members of the house army, and said, were charged against the lives of government officials.

An unconfirmed report said authorities found a time bomb near a government building where the arrested members of the house army were charged with plotting the assassination of leaders of the government.

Names of the leaders—whose names were named for police—were not disclosed, but police said the time bomb was found in the building during the 1948 Warsaw strike.

The Ministry of Public Security said "other groups" working with officers and soldiers of the group had collected arms and explosives to assist their planned activities.

The Bureau of Statistics reported yesterday that the index rose more than half the advance, it said, developed from changes in the price of foodstuffs, clothing, personal care, laundry and fuel.

Soviet Zone in Bad Way, Economic State Worse, Anti-Reds Back West

By THOMAS A. KERRY

Berlin, Feb. 4. (AP)—Tightening of the western Allied blockade of Soviet Zone in Germany brought a blast today from a Russian-American newspaper that this was "the Anglo-American answer to Stalin's peace initiative."

The Berlin Herald, which predicted further hardening, now would be inflicted on the already weary people of the Soviet Zone in a bad way.

\$5.00 FREE EVERY WEEK

The merchants advertising on this page are co-operating in a contest which gives its readers an opportunity of winning a weekly prize of \$5.00. Here's how you win: Each week in one of the advertisements a word will be "Scrambled." Read the advertisements, find the scrambled word, unscramble it, and send it with the name of the advertiser in whose ad it appeared to the "Contest Editor," Ontario Intelligence, Box 190, Belleville. All answers must be in by the THURSDAY following publication, and winner will be announced the next week in a Business Directory. The winner will be drawn from among the correct answers, and a cheque for \$5.00 mailed promptly. No member of the staff of The Ontario Intelligence or their families are eligible for a prize.

Why I Like the Movies
By LOUIS UNDERKIRK
(Novel poet, author and lecturer, in Woman's Home Companion)
It must have been about a year ago that I was sitting in a story flickering beneath a dim glow of light, and I was thinking of the movies. I was thinking of the movies, I was thinking of the movies, I was thinking of the movies.

The Movie Column

By BOB THOMAS

Hollywood, Feb. 11 (AP)—What do the people who own television sets think about television?

To get this information, I posed as a television repair man for a day.

The poll is not meant to be a scientific one, but I think it does show a representative cross-section of television viewers.

1. Do you like television?

Generally, the answer was yes. One woman declared it was "the most fun to her mind," a small boy said, "It made his life worth living."

On the debit side, a grandmother said she didn't look at it much. A housewife man said he saw it particularly.

2. What don't you like about television?

One elderly woman said there was too much noise. A student said too much emphasis was on entertainment.

Other complaints: Lack of good technical direction, too many small scenes.

3. Do you listen to the radio less often?

Mostly all said yes. A housewife said she listens all day, but never after dinner when the TV shows come on. A few said they were more interested in the radio at all.

4. How has television changed your life?

The business man reported it had increased his income. It attracts more people drop in. Another said, "It has made me more out of my home," for kids from the neighborhood.

Nearly all answered they stay home more often. They have friends in this house.

Must Pay Court Costs for Issue That He Started

(By The Canadian Press)

Christopher Reiland (107) North York, Ontario, was ordered to pay \$300 for the court action he started on the last week of 1957.

He is the owner of the Victoria Baseball Club. He was refused admission to the club. The club was then closed and he was ordered to pay the costs of the club for court costs.

Two clubs from Ontario, one from the United States, were refused admission to the club. The club was then closed and he was ordered to pay the costs of the club for court costs.

The New Citizens

Canada has welcomed during the past year 125,414 persons, more than one eighth of a million newcomers, who will make this their home and become its citizens with an undying pride in it as their country.

Many have given up their own country, where conditions are not so free and kindly as they are in the Dominion. Others have come from the British Isles to find themselves in a country which owes so much to the Motherland, because of her citizens, so many of whom have dwelled here for generations. Their reception here is a warm one.

Many a Norman settled in Britain almost a millennium ago, and many a Briton came to know Normandy in the period around the tenth and eleventh centuries when England and Normandy exchanged their kings.

Others came to Canada with no close relatives here to greet them, like so many from the Continent of Europe, who have come here, having with their reward for a chance in this New World by their heroic defence of liberty when the Nazis went on their mad course for enslavement of the world. Such Europeans should receive a very warm welcome on their arrival in this New World. They have left their native homes on the Continent, attracted to Canada by the country's reputation for freedom and for the defence of freedom during the last war.

Canadians who are natives and have been descended from Canadian forebears of the early days of the country and even from those later immigrants of the nineteenth and early twentieth centuries who have just as much claim on this country has for the new arrivals. They come with hope, many of them have made great sacrifices to find a refuge here in which they and their families may live and make a valuable contribution to the Dominion.

Just as the forebears of their fathers have caught the vision of the greatness of Canada, so the Canadians of today, with the Canadians who have just arrived from the Second World War's end have caught a vision of greatness for Canada which merits the support of everyone.

The newcomers are filling a place in this expansive country which has an extent which naturally draws the attention of the world.

Free lands of history have had a more pleasant vision raised in the minds of the Canadians of the past half of the twentieth century.

Winter and Snow

This northern clime, however little some of its dwellers dislike the cold, has in winter something which makes it different to the year and enriches experience. There are the falling snow flake and the snowy mantle which covers the face of the soil. Not all the world has such a contrast of pictures as the flowery earth in winter. It is Nature which is midwinter. Those who see only the bare earth the year round might be expected to envy the dwellers of the north.

No painter with his brush and colors can equal nature's. There are artists who paint windows on some of the winter landscape but their inspiration comes from within as everything good comes from within.

Winter spreads the same mantle over the houses of the rich and the less rich with a fair hand and Northerners would not change the glory of the snow for an ever present green summer, appearing in the spring. It is Nature who has given us these two pictures of the revolving year and those who dislike winter really dislike one of the great works of creation which spreads its beauty all around.

Biography

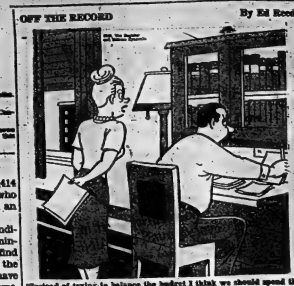

Reader interest is much devoted to biography in this age. This is shown in the annual report of the Copley Public Library and of readers in other communities. Subjects of biography are read with interest. It is Nature which is midwinter. Those who see only the bare earth the year round might be expected to envy the dwellers of the north.

Three Netminders Have Chance To Win Vezina Trophy

Montreal, Feb. 8 (CP) — While Chicago's punch duo of Doug Bentley and Roy Conacher continues to make a mockery of the National Hockey League scoreboard, the scrap for the Vezina Trophy has developed into a wide open affair with three netminders having an even chance to capture the cup and \$1,000 that goes with it.

Official statistics released today show Bentley and Conacher with 21 and 48 goals respectively. In third spot with 15 in Detroit's Ed Abel, while Jim Casavant of Chicago had fifty three of Montreal are tied for fourth with 29 each.

Guslee Chuck Rymer, who has been hit as a firecracker in New York's recent games, leads the way in the battle for the Vezina, which goes to the goalkeeper who has played the most games for the team with least goals scored against it. Just by virtue of their teams having played more games than Rymer, both Bill Durnan of Montreal and Detroit's Harry Lumley are in just as good a chance as the blazer goes out.

Casavant has had 68 goals scored against him in 44 games and Detroit 108 in 40 games. Depending on how they you look at it, one of the three goalies figures to have the best chance to become Detroit's first goalie to win more games than Casavant, there then comes the question of Lumley is top man on a percentage basis.

Getting back to the puckmen, Abel is four to goals with 30 while Doug Bentley heads the all-time column with 52.

Wild Bill Dinkel of Toronto scored his monthly time by 13 minutes during the week and still heads with 118. Canadians are the most penalized team with 354 minutes, Rangers the least with 285.

\$40,000 Jackpot For Loop Teams To Shoot At

Minneapolis, Feb. 8 (AP) — The National Rifle Association's Hockey League today set up a \$40,000 jackpot for the annual playoff series, to start March 22. Scores will be made March 30.

Under revised regulations, the National Rifle Association and Southern Division will collect \$100,000 and split it 50-50 at the start of post-season play. The winning and third place teams will start the series, with the winners of the first round playing the winners of the second round. The first round games will be played on Feb. 22 and 23, the second round on Feb. 24 and 25, and the final on Feb. 26.

Ezzard Charles Took J. Haynes In Eight Rounds

Philadelphia, Feb. 8 (AP) — Ezzard Charles looked forward today to a possible title fight with Joe Louis, and back to a show where against 21-pound Johnny Haynes of New York. Charles, 178-pound Cincinnati, had one of the narrowest escapes of his ring career Monday night in beating Haynes via a knockout at 2:28 of the third round in their scheduled 10-rounder.

Charles converted his speed and bounce into victory with a right uppercut that knocked Haynes out on his back. Haynes got to one knee at which he stayed there as he was counted out.

A minute before, Haynes had been bombarding Charles with the ring with a series of slugging rights to the head. It appeared that Charles was in the very close.

But Charles had too much ring know-how for that and marshaled his strength for the one blow that won the fight.

Renewed Interest In Figure Skating Shown in Capital

Ottawa, Feb. 8 (CP) — Renewed interest in figure skating is being shown in the capital as spectators flocked to the Canadian figure skating championships Feb. 18-19 when a newcomer to Barbara Scott will be crowned.

Charles H. Cunningham, Secretary of the Canadian Figure Skating Association, Monday reported the biggest interest in the 35-year history of the championships. A record total of 19 girls are entered for the junior division. The junior men's event has 10 entries and the senior men's 11. There are three entries for the senior ladies.

Some of the leading contenders for the title which has been abandoned to Tom Morrell, of Toronto, are Jeanne St. Pierre, of Vancouver; Suzanne Morrow, 18, of Toronto; and Miss Smith, 17, of Niagara Falls, Ont.

Brandon Junior Squad Assured Of Playoff Spot

Winnipeg, Feb. 8 (CP) — With Brandon Wheel Kings and Winnipeg Canadians already assured of playoff berths in the Manitoba Junior Hockey League, the battle for the third and final spot home the spotlight. The outcome may be in doubt right down to the final league game.

Winnipeg Canadians, defending Manitoba champions and currently in third place, have three points ahead of Winnipeg Black Hawks. And with each club having two games left to play, the situation is that a Montreal victory or a Hawk defeat would put the team in first.

Aside from the close battle between third and fourth place, the only other highlights of play during the last two weeks were Brandon's straight defeat after winning 30 consecutive league contests.

The Lakeland junior effort, with its four teams—two from Port Arthur and two from Port Williams—has developed into a two-team battle. The defending Canadian champion, Port Arthur Bruins, have begun to hit their stride and are threatening to pull away from the pack.

The second place Port Williams Canadians, down four points, are the only club within striking distance of the Bruins. Port Arthur juniors are in third spot.

On the three-team Manitoba Junior Hockey League, Port Arthur Bruins also are threatening to run away with first place. The Cats have a comfortable 40-point margin over Winnipeg Nationals. Kansas Thistles are far back.

However, the outcome of the league has no bearing on Allan Cup play as the teams revert back to their respective brackets for the playoffs. Port Arthur and Casanella will play off the Lakeland title with the winner meeting Port Arthur in the final for the Manitoba Junior Championship. Giant British Plane Will Feature Lounges, Movies, Bar

London, Feb. 9 (Reuters)—Britain's flying boom, the 150-ton Britannia, is due to undergo its first air trials within the next few months to decide whether it is the answer to future air travel at \$14,000,000 while elephant with legs.

One of the most controversial projects of the day, the Britannia is designed to carry 100 passengers non-stop between London and Australia in 100 hours. It was first conceived in 1944. But it has only been in the air for a few days on repeated delays and may not be completing construction until 1953.

Leads in Britain

For the last few years, scores of new aircraft designs have been planned, and other aircraft construction projects have been going ahead, but it is the Britannia project, the largest aircraft ever built in Britain.

The designers of the Britannia want all other airlines now in the air to be replaced by the Britannia. It is a single-engine, single-deck aircraft, built in Britain.

With an overall length of 177 feet, a wingspan of 200 feet and a tail fin 50 feet high, the Britannia is the largest aircraft ever built in Britain.

The engine is coupled in the middle of the wings, and the tail fin is 50 feet high, the Britannia is the largest aircraft ever built in Britain.

It takes a crew of 10 to fly it. 100 Passengers.

Here's a Story of "Big Business"

Any story of Canada's largest life assurance company—the Sun Life Assurance Company of Canada—is a story of "big business" because more than one and a half million people the world over are safeguarded by the protection and security of Sun Life policies.

The over-growing goodwill which is enjoyed by the Sun Life of Canada is due to the direct and liberality of the Company's policies, the genuineness of character of its representatives, the efficiency of its service to policyholders, throughout its 75 years' history.

For but to her husband, representing the Sun Life Family Income policy, she was able to pay for her family's education and to give her the widest range of life.

SUN LIFE OF CANADA Every policyholder will receive a copy of the complete Annual Report by 1938. Copies are also distributed to J. FRANKLIN HINCHY, Local Representative

Plane To Carry Medical Supplies To Eight Eskimos Mysterious Malady Strikes Group in Arctic Circle

UNIQUE OFF
SENTENCE WILL
BE INCREASED

No Indication When
Appeals Court Will Be

Bulletin, Feb. 9 (AP)—The sentence of a spokesman for the Hungarian foreign office made some headlines today that the sentence of Joseph Cardinal Mindszenty will be increased by the appeals court.

The Cardinal was found guilty of the "people's court" yesterday in Hungary, plotting to overthrow the Communist government and was sentenced to death.

The foreign-office spokesman said that since the sentence of the death penalty was pronounced under Hungarian law in the appeals court will be increased.

The spokesman said the Cardinal escaped death because he had four extenuating circumstances in his favor: that he was a priest, that he was a Hungarian, that he was a member of the Hungarian government, and that he was a member of the Hungarian government.

UNJUSTLY ACCUSED

Unjustly Accused Of Police Files Thief Keys States Testifies He Knew Nothing Of The Files at Pictou

Constable J. K. Keys today testified that he had been unjustly accused of the theft of official copies from the Pictou detachment office.

Testifying before the royal commission investigating charges of misadministration of justice and of interference on the part of provincial police officers, Keys said that Inspector Paul had accused him of stealing the files and threatened "that he better get back home."

For the fourth straight day, Constable Keys was testifying before the royal commission enquiring regarding charges levelled at Constable J. K. Keys, a C. D. man and senior officer of the Ontario Provincial Police.

At the County Court room, Keys was asked to give evidence regarding the charges against him.

Keys appeared, immaculate in his blue uniform, and his large stack of documents under his arm. He warmly greeted many friends in the audience.

Hearing End of Evidence

As was the case on Wednesday when several officers charged by Keys, sat in a group on the bench.

Keys appeared Thursday to be wearing a suit of his own making, and was seen to be moderating charges against him.

Constable Keys was seen to be friendly with E. M. Campbell and Constable J. K. Keys. He has yet to face charges against him.

Remains Documents

It also charged that Constable J. K. Keys had made out a false report in connection with the theft of the files.

Thursday morning, in substance, the charges against Keys were that he had stolen the files and that he had made out a false report in connection with the theft of the files.

Was Still a Constable

"I realized that I was the first to be charged," Keys said. "I was still a constable in a criminal case."

Keys remained the Commissioner of the Ontario Provincial Police. He was still a constable in a criminal case.

There is a traditional method of getting information from prisoners — the same system was used by the police of the Republic of the Congo — by the police who collaborated with the Nazis during the war.

Thousands of questioners work hour after hour, day and night. When the victim sinks forward in a sleepy stupor bright lights are flashed on to his eyes. After a few days of this treatment, it is easy to imagine his breaking down. The police do not start until such statements of guilt have been obtained. By contrast in the British

Mr. Cockburn said the first part of the answer implied that the question as a representation of the gold-mining industry was not a valid question. He said he had asked the question because the gold-mining industry has far-reaching effects on the economy of Canada. He asked that Mr. Abbott withdraw the implication.

The minister declined, saying that he had simply made a comment.

Keays Not Detailed To Prosec Shootings Says Judge Marion

Prescott and Russell Crown Attorney at Time Testifies

Countess Keays was not detailed to have charge of an investigation into a double shooting at Napan, Ontario, in 1946, in which C.O.P. Constable Harold Best shot a transient named John Smith who was killed.

This was told today by the Royal Commission by Judge C. W. MacNeil, county judge for the combined counties of Prescott and Russell, who sat in the hearing inquiring into charges against police officers made by Countess Keays.

"There was not detailed to have charge of the investigation," stated Judge Marion, "were dozens of officers around and they kept the investigation on hand."

Judge Marion was called as Keays' witness in the investigation to testify in connection with the double shooting. At the time in question Judge Marion was acting as Crown Attorney for Prescott and Russell counties.

By request of Commission Counsel C. P. Hoys, Judge Marion was heard before the cross-examination of Keays.

Documents as Exhibits

Regarding the morning session of the hearing Judge Marion testified a large list of documents presented in substantiation of evidence which was given.

Again the county court room where the hearing is being held, Judge Marion testified that Constable Keays was not detailed to have charge of the investigation.

It is noted that the morning session of the hearing was held in the presence of Constable Keays and her husband, who were present as witnesses.

Constable Keays throughout the hearing, Judge Marion testified, was not detailed to have charge of the investigation.

Lovers of Little Gods

By ROY L. SMITH

It is possible to measure a man by the place of the gods he worships. Millions of moderns pay their homage to Christianity, and millions of moderns pay their homage to modernism. The latter of modernism is the worship of modern gods.

Some of the most important experiences through which the gods of the gods have come to be known are the gods of the gods. This week's lesson tells three stories of such gods. The first is the story of the gods of the gods. The second is the story of the gods of the gods. The third is the story of the gods of the gods.

The first story is the story of the gods of the gods. The second is the story of the gods of the gods. The third is the story of the gods of the gods.

The King May Visit Australia, N.Z. in 1950

London, Feb. 11 (CP)—The King hopes to revise some plans for a royal tour of Australia and New Zealand, dropped when he began his last November.

Commenting on reports the trip may be made in 1950, a Buckingham Palace spokesman said:

"It should be remembered that the tour was postponed in 1948 because of the war."

Evidence that the King himself considered to make the visit was given in a telegram he sent Monday to a dinner of the New Zealand Society.

The King continues to make "very good progress" in his recovery from an operation of the leg, the palace spokesman said. He takes frequent walks at his Sandringham estate in Norfolk, where he is staying with the rest of the royal family.

King George VI and Queen Elizabeth were seen yesterday at Sandringham, where they are staying with the rest of the royal family.

Deportation Order Being Fought By de Bernoville

Montreal, Feb. 11 (CP)—The case of Count Jacques de Bernoville, fighting a deportation order to his native France where he is under sentence of death for wartime collaboration with the Germans, came up in Superior Court today.

Also taken up were the County's wife and two daughters, Catherine, 11, and Suzanne, 15. The de Bernovilles were ordered deported by the Canadian Immigration Department on the grounds they were in the country illegally.

"The Count, a 41st year old, was as compared with the day when he was a Lieutenant-Colonel in the French Foreign Chancery in Algiers, came to Canada in November, 1934.

Prior to the court hearings his case attracted wide attention, when Mayor Camille Houde, of the County's right to be in Canada as a political refugee and declared that he was a "valuable asset" to the country.

All first, when the Count came to Canada under the name of Jacques Bernoville, he was unknown. He kept out of sight and worked in the woods for a time around

Kamouraska, Que. He visited Immigration authorities, conferred to Frenchment entry and asked permission to become a permanent resident of Canada. He claimed that return to France meant virtually certain death and that, since he had been sentenced to death in absentia he had not had a chance to defend himself.

The charges against him to France were "betrayal, treason and spying." A witness of the war, de Bernoville was decorated many times, wounded many times and during the First Great War was a military commander of the Legion des Volontaires Français. He denied he had been responsible for deaths of Allied servicemen.

30,000 FARMERS FILE TAX FORMS

Ottawa, Feb. 10 (CP)—At least 30,000 farmers filed income tax returns for 1937, reported Minister McLean informed John Stetson, (C-1) Lake Ontario, yesterday in a Commons return. He said there may have been more but that was the number who filed the special 73 forms for farmers.

Legal 'New Deal' Is in Making For Army, R.A.F.

By STUART UNDERHILL

Canadian Press Staff Writer

London, Feb. 11 (CP)—A legal "new deal" for the British army and the R.A.F. is in the making, including the right of appeal from court-martial findings.

A committee appointed by the War Office in 1936 has recommended changes in the two services' legal procedures. These not including legislation for implementation, already are in force while the others are being prepared for presentation to Parliament.

The committee's six-point submission was:

1. Appeals should be permitted on points of law when court-martial findings are returned against offenders who pleaded innocent.

2. Service trials ought to be speedier. Depositions on oath and statutory declarations should be admitted. Findings should be unanimous; failing unanimity new trials should be in order.

3. Delay in bringing offenders to trial should be discouraged. Reports should be submitted every 48 hours on progress.

4. Cases against prisoners still under court arrest and awaiting trial, if found illegal to detain in a man

house than 30 days without trial, if qualified then he should be discharged, ineligible for re-arrest on the same count.

5. The judge advocates general ought to sit in judicial matters only.

6. Prisoners should be limited to six months for any one non-military offence with an overriding maximum of 12 months for two or more offences.

The regulations are to apply to officers as well as to other ranks.

Reserve Enough High-Grade Iron Ore for All Time

Montreal, Feb. 10 (CP)—Sufficient high-grade iron ore to feed Canadian steel mills for all time is being reserved in the deposits of the new Quebec-Labrador field.

Mr. J. D. Dore, general manager of Labrador Mining and Exploration Ltd., yesterday told the Optimist Club of Montreal.

So large are the deposits, Mr. Dore said, that it is already known that mining of the ore will continue for many years.

The ultimate extent of the field is not yet determined, he said. Canadian steel mills will have first call upon the ore.

Each C.D.S. Basement

for your community

For many years, we, a member of the Poster Advertising Association of Canada, have been in the business of supplying the general public with timely news regarding Canadian products and services. Through the various types of Outdoor Advertising—"24-sheet" Posters, Painted Bulletins, Claude Neon Displays and Electric Spectaculars—we have helped to distribute information about the things business has to offer for the enrichment of life. Lastly we have been casting about for some means of using our facilities, at our own expense, to make an additional contribution to the public welfare.

We might have helped promote safe driving; but many organizations are already doing that. We might have urged more temperate living, but there are an infinite number of opinions as to what constitutes temperate living. We might have concentrated on good citizenship, but that is too vague and nebulous to awaken any active response.

Therefore we determined to use a simple but powerful appeal which we believe will be received with pleasure by the community at large—an appeal to support the local church. The accompanying reproductions show two posters which will be rotated month about in this and other areas, on full size, full-color 24-sheet Posters, as a contribution to the welfare of the community. If they are well received, if they stimulate interest in the Christian Church, we will be more than satisfied.

U.S. and British Navies Attract Interest in Press

By KODIE GILMORE
 Moscow, Feb. 14 (AP) — The United States and British navies have been attracting considerable interest lately in the Soviet press.

The annual report of the United States Secretary of the Navy, John S. Sullivan, on the state of naval armaments was commented on at length in Red Fleet, which may be considered the Soviet navy paper.

After noting this, Red Fleet added:

"Additional information on the naval armaments of the U.S.A. can be derived from the comprehensive statement of the Chief of the Ship Administration of the Navy Department, The Admiral (Fleet) Mills, on the program of shipbuilding for 1934."

The commentary added, however, that Mills' statement provided "no full idea of the scale and tempo of naval armaments of the U.S.A."

Red Fleet said the assertion of Sullivan and Mills for the necessity for further expansion of naval defense and particularly of the fleet and anti-submarine defense of the United States.

"Then, what is involved?" asked Red Fleet. "Why do the American naval leaders emphasize the construction of aircraft carriers and submarine forces?"

This is explained simply: The naval program as well as the naval doctrine of the U.S.A. are in the present time entirely subordinate to and correspond to the requirements of the ruling circles.

The defense of the communications, which no one threatens, is not of interest at all and the communications of the world are not of interest to the world navy. The world navy is not of interest to the world navy. The world navy is not of interest to the world navy.

Thus, the British naval leadership intends to strengthen its position on those ocean communications which are of interest to the world navy. The world navy is not of interest to the world navy.

Material Witnesses Held Since June In Winnipeg Jail

Winnipeg, Feb. 14, (CP) — Whistler Isabel Blanchette, 20, now held as material witness in the slaying of Edgar Frenette, will be indicted or freed probably within a few days.

Blanchette, 26, St. Boniface, Manitoba, was arrested May 30, the day after attempted robbery at his hotel. The Crown alleged the two women and two men—Daniel Patrick Plunk, 15, and James Edward Campbell, 18—were the robbers.

The four were arrested at Kenora last week. Blanchette and Plunk had been in the Crown had had nine months in which to decide what charges, if any, would be laid against them.

"It is a distance to bring a woman or any person locked up for nine months," said the lawyer, L. D. Morwick. He was told he had every right to.

Aleutian Isles Rich in Mummies

Vancouver (CP)—Human remains dating back 2,000 years were found by archeologist Alan G. May in the Aleutian Islands, 2,000 miles northwest of here.

Mr. May, fresh from his latest trip to the islands that form the tip end of the Alaska peninsula, said in an interview that the dead rich in mummies.

"The deeper you dig the more chance there are to discover traces and evidence of an old civilization and culture."

Originally a British scientist whose hobby was archeology, Mr. May explored Canada, the U.S. and the Aleutians for the Smithsonian Institution of America. Now an American citizen, his latest post was founded by the United States Navy's research department.

He said his expedition found bones, tools, food and weapons used by the pre-Alaska 2,000 to 2,500 years ago. The remains were well and generally unaffected by their long interment. Even the clothes were intact.

One of his grand trophies is the second largest skull ever found. It measured 2,000 cubic centimeters compared to the average of 1,450.

Whisper In The Night

by MARIE BUZARD

"She said you'd come up to get your wrist pinned to a good place. And she said, 'I'll be right there.'"

He didn't think there was anything about the matter.

Rosalee felt all her blood rushing to her head. "Angie is the girl I've loved since I was a boy. I wouldn't put it past her to say she was nervous."

Little Benny's Note Book

I been practicing walking around on my new rubber soles like a livable man without making any sound and I'm back in back of Sid Hunt and Glasse. Guess while they were walking along, thinking, Oh boy, I'll have everything they're talking about and they want have any idea I'm anywhere around.

And I got up to back of them on my soles, and Sid Hunt said, Hey Glasse, have you seen anything of Benny yet?

No I haven't and the answer is we him the last I'll tell it, Glasse said and Sid said, That's some way I feel. Believe me it's

Will wouldn't be too far away to put me, he said.

Me thinking, Heck, there's just pretending. They know I was in back of them all a time, I saw, and Sid Hunt said, The darn old Benny puts meers around everybody's nose.

Sure, that's all he does, just meers and meers like a Roman boy behind a iron curtain, he's a pass in the rock and I wouldn't care if he heard me say so, Glasse said.

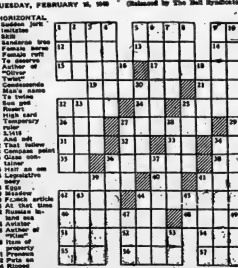

Me thinking, Heck, I'm not even going to give them the satisfaction of letting on I heard a thing they been saying.

And Sid, right follow, I just put here. What's you been talking about?

Who said Sid said. We haven't been talking, we been practicing just dumb and dumb with our fingers, he said.

ANCIENT COLONY TO BE CANADA'S TENTH PROVINCE

Since Discovery by John Cabot Newfoundland has been Slavery's Eden

By DAVID MINTOSH
(Continued from page 11)
St. John's, Feb. 12 (CP)—The Newfoundland colony, one of the oldest in the world, is now being considered for admission to the Canadian Confederation as the tenth province. The British North America Act, 1867, provided for the admission of new provinces on the basis of a report from the local legislature. The Newfoundland House of Assembly, which met for the first time in 1869, has now passed a resolution recommending that the colony be admitted to the Confederation as a province. The resolution was passed by a vote of 18 to 10. The House of Assembly is the only legislative body in the colony. It is composed of 21 members, 12 of whom are elected by the people and 9 are appointed by the Governor. The House of Assembly has the right to make laws for the colony, subject to the approval of the Governor. It also has the right to elect and dismiss the Governor. The House of Assembly has been in existence for over 70 years. It has played a significant role in the development of the colony. It has been instrumental in the establishment of the colony as a self-governing entity. It has also been instrumental in the colony's efforts to join the Canadian Confederation. The House of Assembly has been a source of pride for the people of the colony. It has been a symbol of the colony's independence and self-governance. The House of Assembly has been a source of strength and inspiration for the people of the colony. It has been a source of unity and solidarity for the people of the colony. The House of Assembly has been a source of hope and optimism for the people of the colony. It has been a source of pride and honor for the people of the colony. was appointed first governor and left in 1783 the island had been increased to 8,000 happy souls who were free from the shackles of slavery and the stigma of the slave trade. The island was still ruled by the descendants of the first settlers who had arrived in Newfoundland. The island was a place of freedom and opportunity. It was a place where people could live and work without the constraints of slavery. It was a place where people could build a better life for themselves and their families. Legal Session of Game Birds Ends March 31

Ottawa—The situation of Canadian sportmen who were successful in obtaining ducks or geese by legal hunting last fall is drawn to the requirements of Section 11 of the Migratory Birds Regulations. This Section, headed "Prohibition of Sale of Game," governs the time limit for keeping legally-killed birds after the close of the open season. The time limit varies in different parts of the country. In Ontario, it is illegal to have migratory game birds in one's possession (whether in one's own home, in a store, storage locker, or elsewhere) after March 31. The Royal Canadian Mounted Police are charged with the enforcement of the Migratory Birds Regulations and are expected to examine closed storage lockers in which they suspect that migrants are being stored. If found in violation, owners are liable for prosecution. During the last season, 14,000 birds were taken in Ontario. A number of owners of such birds are liable for prosecution for failure to comply with the regulations. The regulations are a source of pride and honor for the country and its people. They are a source of strength and inspiration for the country and its people. They are a source of unity and solidarity for the country and its people. They are a source of hope and optimism for the country and its people.

RE R. C. CHALMERS

The following conference will be of particular interest to United Church members who doubt be of general interest to some of persons who belong to other communities, who will be most cordially welcomed if they care to attend. Dr. R. C. Chalmers, Toronto, Associate Secretary of Social Service and Evangelism, will give an address at each session which will be followed by a period of discussion.

an address before a medical society said: "To the statement made a good many experts informed Americans believe

When the whole alimentary canal is diseased, a further note may be added to the effect that the patient is always affected in an adverse way. These persons are irritable and unstable, they are nervous, and they are usually, but not always, irascible. In many cases the nervous symptoms overshadow the ulcer symptoms. The reason is that the ulcer is not the cause, but both go back to a common cause: an overactivity of refined carbohydrates which causes a dangerous overproduction of the mineral concentration in the blood stream. Peptic ulcer is

never caused by nervousness. It

Chronic Running

Thank you for your recent chronic running ear. I had immediate relief to my ears although doctors at the hospital "clinic" told me there were no signs of anything would be done to them. To Mrs. Cassel's

stated vitamin compounds are the only ones known to be effective in the cure of peptic ulcer or for any of the manifestations of stomach disease. It is a pleasure to me we have enough scientific and clinical evidence to warrant the use daily in the treatment of the diet in every ambulancement case of peptic ulcer or Yankton Stomach Syndrome, when the diet is at all restricted.

It may begin to be apparent why I have been so much mentioned about "Yankton Stomach Syndrome." It is here in Yanktonland that we put our course of treatment on our "Yankton Stomach Syndrome." And we are disposed to look with much condensation on better and worse chances if you are in the countries where whole wheat flour and crude brown sugar, if used, are the staples.

The Lowly Farmer

I have been a reader for years but have never written.

Answer—Now you know that the whole grain which includes all of

the vitamins and minerals we discard as unfit for human consumption, people who live on the real stuff of life are better nourished if not so overtaken as we are.

Europeans who get all the nutritional elements in the grain are notably less "nervous" than we are, less hurried, less tense. They take time to enjoy life. If per-

LOVE

What an abused word this little one of love is! In our youth, and sometimes far beyond, we "fall in love" with someone, with whom we hope always to live and love. But there is a large field for love. I love books — even with a passionate love. I love many of them as I love those authors who have made their souls live in mine

such immortal works of art. No one has ever made me weeping in what He has made but millions love Him. No one minds put the mark of His love on the human mind. It's the way and manner in which they do it, that makes them. No one could make me love in the late winter. The love I want is the love that will warm the soul and the body and the spirit and the will and the mind.

and heart. There are authors
whom we admire and whom
ers and friends so look
no one could help but

and heart. There are authors whom we admire, and whose words we treasure, but we cannot say that we love them. There are others, however, whom we love, and whose words we treasure, though in an impersonal way. We say that we love them because of the infinite love they put themselves into print.

Writers like Robert Burns, Shakespeare, and Robert Frost, we can well say that we love. They make us love them. We admire the great authors, but we love them because they are difficult to love. An English reviewer said that he loved the Scotch because they were a free friend and lover of the poor.

Our friends and our books are not the same. Our friends are those who can help us in our daily lives. Our books are those who can help us in our daily lives. Our friends are those who can help us in our daily lives. Our books are those who can help us in our daily lives.

Next 60 Days Will Answer Lot of Questions

New York, Feb. 18. (AP)—Fired people believe that the next 60 days "will answer a lot of questions" as to extent of demand for the new 1934 automobiles.

Noting that some American companies are planning opening operations into the new year, the public says:

"They don't, they simply are the turning point for their change in the new year. It is the time when the public gets a chance to see what the new cars are like and to compare actual prices with those of the old cars."

Although cancellations in certain products were described as "unfortunate," the reality said that so far there have had no effect on the total tonnage scheduled for production.

"Through the almost all carmen's stock products still hope supply," the New York said. "Although few buyers have cancelled or declined to accept orders, others are still anxious to take all tonnage available. Still no having no trouble disposing of it."

For the first consecutive week, production in the United States has been maintained at 400,000 cars a week of more than \$7,000,000. The first quarter of this year, the production said, probably will set an all-time record for production.

SPECIAL STAPLER ISSUES

From 1934 to 1935 only one special issue of postage stamps was put out in Britain.

Present Level Of Unemployment Largely Seasonal

Toronto, Feb. 18. (CP)—The Ontario, director for Ontario of the Federal Unemployment Commission, said today the present level of unemployment in the province is largely seasonal. He said that for the first time in several months the number of unfilled positions is a seasonal increase, "he said."

CHAS. A. LAFAYETTE—These rows of tray-cases are boxes of 500 white milk at the 2500-foot level of the McIntyre Perceps Mountains near Timmins. They are part of an experiment to determine whether cosmic rays—non-ionizing light below the earth—have any effect on the growth of cancer. A similar group of milk is being kept in a X-ray laboratory exposed to the rays of the surface. The results of the experiment may give medical science new methods in their battle against cancer. London Letter Keepers of Pubs In Whitehall Go to Palace

By NORMAN GREENBERG
(Canadian Press Staff Writer)

London, Feb. 18. (CP)—Four men who keep pubs in Whitehall go to the Palace of St. James at the invitation of the King. They are asked into a long painted room where the master of the King's household, now Sir Peter Lach, shakes hands with each in turn.

These public houses are selections from the police (halfway of it in recent times) but houses are renewed for another year — as they have been for almost 600 years.

Daily Whitehall problems get their license from the Palace — a convention of the King's household. The custom has survived through the centuries from the days when Whitehall was a royal palace and in the present day the neighborhood was unrecognizable.

The last of a family owned and white-bellied R. S. Thorpe, 75-year-old founder of the 16-century Silver Cross, who has been to the Palace every year for a quarter of a century. "This is a pleasant ceremony," he said.

Three other illustrious taverns adjoining the Silver Cross are recognized — The Clarence, The Old Ship and The Old Ship.

Landlord Frank Mackay says The Clarence has been going to the Palace since 1840 when he was discharged from the Royal Army Ordnance Corps with a disability pension.

"It is an impressive occasion, but these days it has to know what to wear."

Licenses are issued by the assistant clerk of the Green Cross, one of the three automatic clerks of the palace. It gets its license from the three green coats covering the table at the entrance.

The court was set up by letters patent in the 17th century and has jurisdiction over all persons making between parties within its area.

RETAIL MERCHANTS, SIGN OPERATORS, THEATRES, GASOLINE STATIONS and OTHER COMMERCIAL CONSUMERS

**Notice Regarding the
Limited Suspension of Lighting Regulations
7:00 p.m. to 7:00 a.m. Monday to Friday
7:00 p.m. Friday to 7:00 a.m. Monday**

Regulations 4, 5 and 6 (under the heading "Part III Lighting") of the Regulations Respecting the Use of Electricity in Ontario Put Into Effect September 14, 1948, and Amended October 13, 1948, Are Suspended Between the Above Hours.

Continued improvement in water conditions, coupled with unusually mild weather, now enables the Commission to meet normal demands during night hours and on weekends. In view of this, the lighting restrictions set out in regulations 4, 5 and 6 (under the heading "Part III Lighting") of the Regulations made by the Commission under the Power Commission Act, are suspended each night from 7:00 p.m. to 7:00 a.m., Monday to Friday inclusive, and from 7:00 p.m. Friday to 7:00 a.m. Monday. However, during the daytime from 7:00 a.m. to 7:00 p.m., Monday to Friday, resources are still inadequate to meet power demands fully. The Commission therefore requests that the Regulations be strictly observed during these hours and that voluntary conservation be continued.

The Hydro-Electric Power Commission of Ontario and the Municipal Systems wish to express their sincere appreciation to all Hydro users who were affected by these Regulations. Your splendid co-operation provided invaluable aid during the critical period of the power emergency.

THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO

Witnesses Retell Stories They Gave At First Trial

Since Oct. 17 (CP) — Seth Linton's second trial in murder is the fifth-best slaying of Lew Stewart last June today resumed its end.

Corporal John Clark, 18th house witness, was called to court opened today. He will be followed by Dr. W. J. Denderson, pathologist, and Sgt. Suberian, an R.C.M.P. bailiff.

The 41-year-old well digger, who got a second trial when the Ontario Court of Appeal threw out a conviction and death sentence at his first trial last November, will not testify in his own defense. This was announced by defence counsel G. Arthur Macdonald this morning. Linton testified at his first trial.

Corporal Clark testified that Lew Stewart had the reputation of being "nervous" after he had been drinking.

Dr. Denderson said Stewart received a fractured nose, lacerations to his left eye and fractured skull as well as other injuries. He suffered three gunshot wounds in the body. Death was due to the skull fracture, brain damage. The bullet wounds were superficial.

Crown witnesses yesterday retold the story they gave at the first trial last November concerning an early-morning argument which ended in a blaze of gunfire and the death of Stewart and Stewart's wife with guns in the Linton home to obtain some personal belongings of Mrs. Stewart, who had been working as Linton's housekeeper.

Neighbors said they heard Linton repeatedly order the Stewarts and Klips off his property that Sunday morning. Leonard Maylin said he saw Klips kick in the door of Linton's home.

Mrs. Maylin said that two hours

before that incident, Linton came to her door, his face blood-matted, and said that Klips had beaten his wife. Later, she was awakened by Linton's voice shouting "Get out!"

Bert Mills, another neighbor, said that after the first shots he saw Klips run down the front veranda steps of Linton's home. He added he saw Stewart stumble back on the veranda and fall. Five minutes later he saw Linton carrying a rifle, come out of the front door and strike Stewart with the butt of the rifle, he said.

Final to better vision are AO Belleville-made lenses, an essential product that enables AO to face the future with confidence.

PLANNING FOR THE FUTURE

The future is something to which we all look forward — and for each of us it holds the answer to many things hoped for and desired. But to no one is given the ability to foretell what actually will come about. And even those who make a profession of forecasting the future for industry are often wrong.

Here at American Optical Company Canada Limited we, in common with all Canadian business, have been pondering deeply what the future holds for us... for our lens plant here in Belleville and our employees... for the optical industry as a whole. But lacking the gift of second sight, we can only plan to the best of our abilities and prepare today for the happenings of tomorrow.

We have just completed what we proudly feel to be the most modern ophthalmic lens producing plant in Canada... we have bettered working conditions to insure worker comfort and efficiency... and we have developed plans for adding sun glass lenses and a new, more complex bifocal lens to our already noted line.

In every way possible we have prepared our business for the unforeseeable conditions that lie over the horizon. We feel strongly that by preparing today, by having faith in our workers and in Belleville... that we have established the firm foundation which is the best kind of long-range planning.

What the future holds we face with confidence. By applying our best thinking, by preparing to the best of our ability... we can weather the vicissitudes of changing economic conditions and the keen competition that we face.

Planning for the future... managing our assets wisely and preparing our strength for the long pull... will enable us to continue to be a good citizen and a good neighbor to the community and people of Belleville.

Government Plans Defence Outposts In Indian Oceans

By LESLIE BROWNE
Canadian Press Correspondent
Sydney, Australia (CP)—Christmas Island, a tiny dot in the Indian Ocean about 1,000 miles from Ceylon and Perth, was formally declared a military outpost of the British Empire. The island is to be used as a stepping-stone to the defence of the South Atlantic and Indian Oceans. A Lancaster has arrived on the island to begin the construction of a permanent base. generally admitted. Steel making, an industry publication, said in December that the steel shortage "gives every promise of continuing for sometime. True, after a trade week, said "if steel is as short by the end of 1949 as it is now, there will be no more fire shorts over the capacity problem, but the industry has seen nothing. Big steel makers predicted it would be a long time before they would catch up with the demand by the end of 1949, and that the industry has never received. Commerce department officials won't even give a date when it supply is even within reaching distance of 1947 steel supply.

Steel men say that increasing the steel-making capacity will reduce, rather than increase, the shortage, but the program will not be initiated until the summer of 1950. The reason is that it would take too long to build new plants for the steel making plants. Also, the steel men say that the steel shortage will be so bad that to build more plants would make it necessary to raise steel prices again.

"DOGS" TO RESCUE OF RANCHERS
ONTARIO WILL MEET ALL POWER NEEDS SOON

Ten Million Monthly Budget Is Laid Out

Toronto, Feb. 15 (CP)—Hon. C. M. Chalmers says Ontario will be able to meet all its electric power needs.

As vice-chairman of the Ontario Hydro-Electric Power Commission and the cabinet minister responsible for hydro, he told the Ontario legislature yesterday that the commission, working on a \$10,000,000 monthly budget in 1940, is extending its financing service through the province.

Speaking in Three Rivers debate, he said the new One Ontario plant on the Ottawa River, which will be able to generate a capacity of 400,000 horsepower, will be ready to go to the big Queenston plant. Four or five of these plants, he said, might be in service by the summer.

Other plants expected to be in full-time or part-time operation by the summer will be at Thompson falls south of St. Catharines, and at Niagara, near the Niagara River. The latter is an ultimate capacity of 100,000 horsepower.

Mr. Chalmers said further construction of the commission from plans already in progress will be completed by the summer of 1942.

Chalmers told J. B. Jelliffe, leader of the C.P.F. opposition, that the commission is not opposed to Quebec's Saguenay River project, but is not in a position to compete with it, and even admits to complete lack of knowledge of the Saguenay project.

By DENNY MACKENZIE
(Associated Press News Analyst)
Gen. C. M. Bradley, United States Army Chief of Staff and Commander in Chief of the American Expeditionary Force, has just issued a powerful opinion on the shirkers of the American Expeditionary Force, who are given a drubbing by Gen. Bradley. As a matter of fact, this article is a masterpiece of logic and common sense. The General is dealing with the shirkers in such a way that it is a pleasure to read his views. He points out that the shirkers are the ones who are the most dangerous to the success of the American Expeditionary Force. Hollywood, Feb. 18 (AP)—Fred Astaire is spending these days watching his legs run at Santa Anita, but he won't be idle.

B.G.M. is shipping up a reliable for Fred and he expects to be back at work. The new picture will not be with Gifford Rogers, with whom Fred makes a screen appearance in "Dancers of Broadway". Judy Garland may be playing it.

Meanwhile, the deal for a Christmas with Fred and Irving Berlin has bogged down temporarily. Paramount and Irving Berlin can't agree on terms.

A Mark or Two
The Marx brothers were called back for studies on "Love Happens" but Chico couldn't remember the call. He's playing in England.

Life in a bridge game is always a problem for some players. It comes from their use of an unusual opening bid. This makes them unsure of their future bids, prevents their use of routine.

An opening based on honor tricks is not always sound. It may lack a fourth high card. So its later acts must be decided by inference and adjusted by exception.

Such systems based on honor tricks are 8 to 10 honor tricks in all. Their opening is with 10 to 11 honor tricks, presumably better than a fourth of the total. But there are more than 8 to 10 honor tricks in all.

Take A K as two; Q J 10 a half. Or A Q as 1 1/2; J 10 as one. Or A J 10 as 1 1/2; K as one. Such combinations could occur in all four suits. They would total ten honor tricks.

They are a high card, and they are what not to do next and later. Not only, they are uncertain what to do next or later. That is they must not use the same routine after every opening.

A Honor System opener is not short of any basic point. Therefore selection of his later bids may follow routine after every opening. There are no modifications, formalizations to consider.

Take a hand like the one shown.

♠ A Q 6 4 2
♥ 10 10
♦ A K 3
♣ A 8 3

It is a sound opening bid of one spade, in any system. In Honor System it is exactly correct and no more. In the honor trick method it is stronger. No need, indeed.

So, on the second round * Honor System opener shows he has no second bid unless forced. No honor trick opener, however, may not pass without a firm next bid set may depend on inference.

You could start a firm next bid set on the next of this suit. It is better to be sound and not get round, or have a wider spread and guess what he's.

So, Harper will double for him in the scene.

George Raft may join the search to CBS with his latest show. He's still wanted at the success of the program. It's his first hit after many tries.

Bob Hope was snubbed at George Raft, who snubbed the photo-play scene. Bob was ready to get some stage, but James told off with a "thank you." James' boss, Darryl Zanuck, spoke later.

A.F.I. representatives to the United Nations Social Science conference with James M. Thore, chairman of the U.N. Economic and Social Council, shortly before the former accused himself at Lake Success, N.Y., of operating slave labor camps. Soviet delegate S. K. Tsvetkov (bottom, second from left) violently denounces the slave labor charges at the council meeting. He termed the accusation "ridiculous" and said that no investigation of Russian camps would be tolerated.—International News Photo from Central Press Canadian.

WESTERN POLITICS—Premier R. C. Manning, left, of Alberta and J. Harper Brown, Alberta Liberal leader, discuss matters at the Alberta Legislature meeting this week. At left, Mr. Manning has been premier for six years and a cabinet minister for 12 years. He leads the 31 Social Creditors in the 57 seat legislature. Mr. Brown, 33, is Canada's youngest political party leader. During the last session he represented the army in the provincial house. (CP Photo)

Weekend Fatality Toll in Eastern Canada Thirteen

The Reichsbanner in Berlin, begun by Adolf Hitler in 1927 and finished in 1935, was the pride and joy of Dr. Goebbels. He died in the great raid shelter beneath it and his body, with that of Eva Braun, was burned in the chancellery garden. Today it is a pile of rubble, its famed garlands a wilderness of shattered stone. At left is part of the dance pavilion, with windows decorated up the double. The Russians have now ordered complete demolition of the Reichsbanner ruins. All the marble and mosaic work is to be saved and three galleries of the memorial. On top, in a twelve-like museum, will rest the Red army's "unknown soldier." The entire memorial will be surrounded by a granite statue—either of Stalin or a Red army soldier. The entire memorial will be all-constructed, for some reason clear only to the Russian mind.

ENGENDERING MR. RAFFLES... 1948 VERSION

BETTY RITCHIE

Gerard Graham Dennis, described by some as "one of the greatest burglars who ever operated," is imprisoned by Detective Victor Peterfreund at the Westchester county jail, in White Plains, N.Y., where he was brought after his arrest in Cleveland, Ohio. The date: 29-year-old jewel thief, formerly of Toronto and Montreal, told the police a story involving upwards of \$1,000,000 in loot gathered in burglaries from coast to coast; it included a lavish love nest in Beverly Hills, Calif., along with chapters about beautiful young women picked up along the way. He was arraigned on first degree assault and robbery charges. He held for grand jury action.

Obviously not too happy about the whole thing, Betty Ritchie, former Toronto police trooper, is shown at left after her arrest in the Beverly Hills home of Gerard Graham Dennis, Miss Ritchie, who was booked on suspicion of burglary, is said to have posed as the wife of the society hostess for the past year. It was beautiful Gloria Horowitz, rich, civil service model, who sat on the trail of the society gun thief and caused his arrest.—Central Press Canadian.

LOVE WORTH \$20,000
Mrs. Naomi Bishop Gordon, whose lost love is valued by her ex-husband, former Eliel, Col. Charles Gordon, of Scotland, Pa., is suing Stanley W. Parker, Winthrop, Mass., telephone executive, for \$20,000, charging alienation of affection. The suit is being heard in federal court Boston, hearing both principals are in different states. Several letters allegedly written by Parker to Mrs. Gordon, in which he called her "Sugar," were read in evidence. Mrs. Gordon testified that she had dated dates with Parker and made her husband "a little jealous at times."—Central Press Canadian.

Even Gravel Roads Losing Snow Fast

Toronto, Feb. 23 (CP)—Ontario motorists are having a hard time of it. The weather is mild and the highways have dry, even gravel roads are fast losing all of their snow. Officials of the Highway Dept. say that the weather is making it difficult to keep the roads clear. The weather is making it difficult to keep the roads clear. Giant Seaway Project Means Ore Carriers Steaming on Lakes

By WILLIAM G. SMITH

Pittsburgh, Feb. 21 (AP)—Backers of the St. Lawrence River seaway project are crying a new, potent weapon these days which they called the "Sugar" steel industry of the United States. One who is opposed to the project is the St. Lawrence project to make openings of Great Lakes ports but now steamers seem to be changing their minds. The millions of tons of iron ore are being shipped from the St. Lawrence River to the Great Lakes. Steel companies don't discuss it publicly but they look with growing favor on proposals to make the 2340 miles of river and lakes accessible to large ocean-going ships.

RAILS AND COAL MINES Opposed

Privately, many steelmen admit that with the end of the steel industry in the Michigan iron ore in sight, they would be likely to be carried out of central rails crossing the Great Lakes. That's what the steel seaway project means to them.

The coal-mining industry and the railroads haven't wavered in their opposition. They can force nothing but a disastrous loss of market plus a big public debt.

Some plans drawing more than 14 feet of water cannot pass from the St. Lawrence River to the Great Lakes. The seaway would mean all channels to at least 27 feet deep, a 12-foot-and-over canal. International rapids with canals. Some plans drawing more than 14 feet of water cannot pass from the St. Lawrence River to the Great Lakes. The seaway would mean all channels to at least 27 feet deep, a 12-foot-and-over canal.

from around \$275,000,000 to nearly \$1,000,000,000. You can choose your own figures from the cost estimated.

Supporters point to the "cheap transportation" they said would unfetter millions whose income is being lost by the loss of the steel industry. They say the steel industry is being lost by the loss of the steel industry.

Many think the project has been approved this year but even before that the project was being supported from the steel industry.

Power Interrupted

Napages, Feb. 19 (CP)—Power service on the Newburg canal was interrupted during the night when a small truck driven by John Reynolds of Newburgh crashed into the canal, causing an icy spot on the roadway three miles north of here. The truck crashed into a hydro pole causing it completely from its reinforced base. Several occupants in the truck were shaken up but none seriously hurt.

CHARGED WITH WOUNDING

Toronto, Feb. 21 (CP)—Gordon Louis, 21, today was charged with wounding following the police raid on a rooming house in the city. The police found a man in a rooming house in the city. The police found a man in a rooming house in the city.

Woman Injured By Gun Blast Husband is Held

By The Canadian Press

Brantford, Feb. 19 (CP)—A "lucky shot" man, Mr. Harry Conroy, held police officers Friday afternoon after they learned a shotgun blast had ripped through his left arm.

His 38-year-old husband is being held in connection with the shooting at his four-room cottage, which police found littered with broken beer bottles. There was a smashed window in the kitchen and two holes in the ceiling and wall of the living-room caused by shrapnel from a 20-gauge shot.

Nothing held as a material witness in the case is known. It is said that the husband was present at the time of the shooting.

Conroy, a cement contractor, was shot in the arm while working on a house about Friday afternoon, according to information given police by his wife. He was drinking alone and she and three children were home. Conroy was taken to the hospital.

750 TELEPHONES ADDED IN PAST YEAR

Telephone service in the city of Portland has increased 750 according to Mr. C. W. Freese, general manager of the Portland Telephone Company. This compares with a net increase of 1,000 in the city of Portland for 1941 and 1,200 for the city of Vancouver for the same period. The company reports that the increase was due to the fact that the company has been able to add more lines than it has lost.

During the year the company has added 750 lines to its system, but the demand for service has been so great that the company has had to turn down many requests for service. The company is now working to increase its capacity to handle the demand.

JAMES PIGGOTT'S IDENTITY HAS BEEN RECOVERED

Through a coverage story appearing in the Ontario Intelligencer, the identity of a James Piggott who died last week in a fire has been established by Melville Douglas of Stirling, Ontario. The story in the Intelligencer stated that Piggott was an English boy who during his early life had lived at a home near Stirling. It was then that Mr. Piggott died as a witness to a murder.

Hamilton Tigers Defeat Dutchmen In Overtime

(By The Canadian Press)

Hamilton Tigers will play best when the clock and score are even— even if it takes 22 minutes and 19 seconds to prove it.

Monday night veterans Bobby Hamilton scored by the second overtime period and gave the Tigers a 2-1 victory over the Dutchmen. The Dutchmen were led by the veteran Nickerson—Watson. Fyrist Dutchman who led the Dutchmen to a 2-0 semi-final series in the Ontario Hockey Association League at 4-5.

In another under "A" playoff tilt, Toronto Marlboros made 2-0 in their best-of-seven series by defeating Owen Sound Maroons game 4-2.

In Hamilton, it was Laurin's backhand shot from the blue line that put Owen Sound out of the game.

The little W-W netminder played a sensational game with the puck stopped through his legs.

At the other end, Art Chabot turned in one of his best performances of the season. He scored his first shut-out of the series and led his team to a 2-0 victory.

The Dutchmen suffered a loss to the Hamilton Tigers in the second period with two back checks.

At Owen Sound the Ducks drove down 2-0 in the first 10 minutes of the first period, but a 3-2 victory in the second period added one goal in the third.

They'll Do It Every Time Let's Get This Game Over, Girls, My Boy Will Be Back From School

Few 20-Game Winners Coming Up from Minors
New York, Feb. 22 (AP)—Major-League baseball teams will have plenty of pitchers up from the minors in their training camps this year, but few 20-game winners.

A check of the roster appears to show that only a few pitchers will be in the 20-game winners' class. The Toronto Blue Jays have the most, with 12. The Boston Red Sox have 11. The New York Yankees have 10. The Chicago White Sox have 9. The St. Louis Cardinals have 8. The Philadelphia Phillies have 7. The Cincinnati Reds have 6. The Pittsburgh Pirates have 5. The Brooklyn Dodgers have 4. The New York Giants have 3. The San Francisco Giants have 2. The Los Angeles Dodgers have 1.

"Someday" comes closer with every dollar you save
Most of us have to plan for the good things of life. And a big part of that planning is a matter of dollars and cents—cornering a certain part of our earnings for the things we want.

It's not always easy, especially these days. But the fact remains that what you save is still the most important—the most satisfying—part of what you earn.

Are you hoping for something... or saving for it?

The boys in the back row might think nothing of it. After two looks at the opponent cards I mean, that in a regular bridge game even they might not make any apouts in this deal:

NORTH
♠ K J 8 6
♥ A 10 9 8
♦ A 5 3
♣ K Q 9 8

EAST
♠ 7 8 3
♥ 9 8 5
♦ A 10 8
♣ A 10 8

SOUTH
♠ A Q 10 5 3
♥ A 10 8 5 3
♦ K 8 4
♣ A 10 8

You would get a bit of excitement out of taking 11 tricks here with your own placement, but you, my little-cats, need not recalculate. Making such contracts is not an ability. A master player is the one who can take the tricks and win with the cards you give. The opening lead from west was club king, and he took at the dummy and saw what he is up against. Two club losers are away. He has to worry about there is also the small matter of ruffing some diamonds and hearts, you see. Not a very encouraging outlook despite the trump wealth.

Opponents have four trumps. Small as they are, the expectancy is greater in three in one hand and two in the other. If trumps are pulled, all yet cards can not be ruffed.

Refusing to take trick one, dummy club ace won the second trick. Diamond ace was ruffed. A diamond ruff in south hand was won with dummy jack. Another diamond was ruffed with spade ace.

A trump was won in dummy. Another diamond was ruffed with spade queen. This card up the south hand. This card up the south hand. This card up the south hand.

It looks like a heart breaker.

The Movie Column

By BOB THOMAS

Hollywood Feb. 22 — (AP) — Today's question for the Hollywood forum is "What do you think was the greatest acting performance on film and why?"

To prevent any age-grinding I stipulated that selections had to be dated before 1934. Here are the answers:

Donner Lammert: "No dramatic critic as I have to choose the role that made the actor's reputation on me. It was, of course, Crawford in 'Kitty Lyndon'."

Charles Blackwell: "For a display of performance, you can't beat John Gilbert in 'The Sign of the Cross'."

Paul Herrell: "Garbo in 'Camille' was a flawless interpretation of the role."

Frank Fink: "The Good Earth" was a flawless performance."

Gene Harwood: "Douglas Fairbanks in 'Arabian Nights' because he presented a picture of what every man would like to be."

Joe Lantz: "Linda Starn in 'The Good Earth' because her face reflected Chinese civilization."

John Lantz: "Linda Starn in 'The Good Earth' because her face reflected Chinese civilization."

Doctor and Wife Chased Out Of France by Communists

Montreal, Feb. 24 (CP)—Mrs. Michel-Lucien Seligman, wife of a 45-year-old French physician said to have been a Nazi collaborator, said Wednesday that her husband was "chased out of France by the Communists."

Dr. Seligman's name came up in the House of Commons Tuesday night at Ottawa as a result of a question given when in Canada.

"We had to obey the Marshal (Marshal Petain). This was our only crime. That is a crime the Communists don't forgive."

"Who is this Col. Romanin?" she declared. "My husband was in contact with the Nazi SS."

(Mr. Stewart had said he had received his information on Dr. Seligman from a Magill officer named Col. Romanin Pett.)

"We do not know this Col. Pett," she said. "My husband never saw him."

Frenchman working for and with the SS troops?

"I am in the front. We lived in Verviers, 10 miles from Potters. My husband was a doctor, visiting his patients in about seven communities in the area."

"The Communist group was very active in Potters and in the department of Verviers. We were closely connected."

Lily Brown, Verviers

"Living in such a place as Verviers became untenable. The danger of being mistreated, and killed by the Communists was very great."

"Abbe Dolan, parish priest of Verviers, now dead, knowing my husband and family were endangered by proximity to the Communists, advised us to leave this small French centre. That is what we did."

"Two days later we learned from friends that our house had been pillaged and laid waste."

cent hydro power shortages, he said. They had been caused by "political meddling" in hydro affairs. Mr. Drew said he had been told by the hydro board that he played every instrument in its hands."

Mr. Seligman, Miss McIntyre and C.C.P. members engaged in a free-for-all debate over the C.C.P. action that brought speaker M. C. Davies to his feet for the second successive day to ask for order.

Mr. Frost denounced the L.P.P. member since municipally owned aid are houses on which Mr. Seligman charged the government was "spending" money. Mr. Seligman said the government was placing a burden on these institutions by eliminating the additional \$10 a month from old age pensions when pensioners were admitted to a municipally owned home.

Mr. Frost charged the L.P.P. member with "treating discrimination." That was why the C.C.P. group had refused to be seated near the two L.P.P. members in the legislature he added.

Criticism of Premier (CCF-Riverdale) interrupted shouts from front benches that the C.C.P. was a "separate and distinct" party like the Communist Party of Progressive Conservatives.

Mr. Seligman described the C.C.P. as "the darkest blot on the record of this government."

Mr. Thornberry said the government "has not realized a two-by-two" in case the housing shortage. The Speech from the Throne had said 5,000 homes a month from old age pensions.

Mr. Seligman said the government had "legislation which allows the government to assume second mortgages."

But the government had "merely aggravated" the problem by forcing people to buy houses when there were no houses to buy. Mr. Thornberry said. This had contributed to a rise in house prices.

New Type of Stucco Tough Material for Cheap Homes

By LAWRENCE N. ELDRED

Chicago, (AP)—If you would turn this to build a good low cost house, here's a ray of hope for you.

Builders have modernized a type of concrete that is stronger than concrete of 30 years ago but now having a remarkable variety of colors.

The old style stucco, made of three parts—cement, sand, and water, they have a reinforced type which becomes a "cracked" finish, one-inch thick and one-inch wide.

They claim it is cheap to build and maintain yet is superior to the old type in its resistance to rotting, staining, chipping and weathering.

It has been tested all the way westward from Edmonton and Winnipeg, where temperatures drop to at least 35 degrees below zero.

Advocate claims that it saves hundreds of dollars on the building. It costs about 10 cents more than the old type, but it saves more money in maintenance.

It is a permanent finish, and it is a permanent finish, and it is a permanent finish.

The dental pulled pop's tooth out by extraction this afternoon and was waiting for him to come back saying, "Oh dear, it's probably just like military personnel, with its face still so nervous and everything, and then, there's a particularly stout on up to go over and play for the evening, observer. Well, I won't even ask him how he feels all after dinner," she said. "I understand. Don't go into any deeper explanations for land sake. At least, I hope you enjoyed your liver and cod liver oil. When was that? pop said, and she said, "Oh dear, I think I'd better be a nice feeling of good riddance."

FAN APPRECIATIVE OF FLAY OF GUNNERS

There was at least one appreciative spectator at Memorial Park last night when the Belleville County players were in the Omaha street-view playground.

The stranger approached the Belleville players. "You bunch of kids you get them," he yelled. "First time I've seen 'em in action. They should go down."

The crowd agreed. "Gee, it's a fine bunch of boys with good technique," he said. "I've seen 'em in action. They should go down." "You bunch of kids you get them," he yelled. "First time I've seen 'em in action. They should go down."

FIFTEEN WOLVES BAGGED THIS YEAR BY COUNTY HASTINGS

The wolf menace in Hastings County is apparently more than a normal winter pest in the northern section of the central belt.

Fifteen wolves have been bagged so far this year. The crew or majority being sent to trap the Coeur d'Alene, according to County Treasurer Ross Bailey.

OFF THE RECORD

By Ed Ross

ACCIDENT INSURANCE CO.

There has been a lot of talk about the "off the record" talks between the British and the Arabs. The British have been very busy in the Middle East, and the Arabs have been very busy in the Middle East. The British have been very busy in the Middle East, and the Arabs have been very busy in the Middle East. The British have been very busy in the Middle East, and the Arabs have been very busy in the Middle East.

Hopeful Sign

There has taken place a step which seems to augur well for the Middle East, the signing of the general armistice between Israel and Egypt. Egypt has taken the lead in the Arab League and the hope is held that the armistice marks the beginning of peace in the Holy Land and that part of the world in which the Arab States are predominant. New armistice talks are to start between Israel and Trans-Jordan and other Arab states are ready to join in.

To the South Pole

Expeditions into polar areas are not new in these days. There was a time when expedition after expedition was sent to the North or South Pole, most of them great magnitudes shrouded in a veil of the unknown. Even so late as the ill-fated Scott expedition to the South Pole, the expedition was shrouded in the British flag, and the expedition was shrouded in the British flag, and the expedition was shrouded in the British flag.

Today with scientific advances to aid them, scientists seeking meteorological information have comparatively easy work. Now an expedition is preparing under the joint auspices of Britain, Sweden and Norway for Queen Maud Land in the Antarctic, which has never yet been reached on such an expedition. The aim is to set up in the Polar area a permanent weather station.

The explorers will also examine all the facts regarding the territory which is a wintery wonder of that desolate part of the world, there is an area that is entirely free from ice and snow, lying among the jagged mountains two hundred miles inland and previously deemed too inhospitable for man.

Scientists will also examine the South Polar regions to find if they are warmer than they used to be, such a condition has been reported of the Arctic area. If this should prove true, will this signify a world-wide change in alteration of climatic conditions? Even though this is a long time and a half year—a fact which indicates something of the amount of the work to be accomplished in this practically unknown part of the globe.

Changing Climate and Tree Growth

The climate of Uganda is slowly changing, says Frank Edwards in an article in Woodland World, quoting a French expert on the Arctic, Prof. Andre Michale. The proof is seen in the advancing tree line which is creeping northward in the north. The tree line is advancing northward in the north. The tree line is advancing northward in the north. The tree line is advancing northward in the north.

It is generally accepted by scientists that the climate of the entire earth has been growing warmer in the past three quarters of a century and this is seen in the changes in the growth-rings of trees and tree-fossils of many centuries. What is the reason for this change is not clear, even to the experts. The reason in Woodland World says that "there is reason for thinking small changes are rhythmic in character and would cause altered climates everywhere on earth, Arctic or not."

Another factor is seen as possibly at work in the Uganda area Mr. Edwards says, "Movements at the bottom of the Greenland, and between Greenland and Europe, are very important to the world. The result would be to change the course of the warm water of the Gulf Stream with corresponding changes in the climate." Here, he says, people must be forewarned that the warm water of the Gulf Stream is able to take their sailing ships into Hudson Bay 600 years ago. Then it grew colder, the ice returned; trees and vegetation died. We may eventually have some of the forest of the past on the advancing tree line is perhaps the earliest indication."

GLEANINGS FROM OUR FILES BY ED ROSS

30 YEARS AGO Feb. 25th, 1916

Small Deaths, employees of the Bell Telephone Company for the past twenty-two years, the last five years of which he was vice chief here, has been transferred to the Brockville agency of the company in a similar capacity. He missed the service of the company as a messenger and collector. He applied himself to his work and eventually became Assistant Inspector, then Chief Inspector, Senior Control Officer and finally Vice Chief. Always courteous and obliging he has made many friends in the Brockville office. Mr. Percy McGowan of the Kingston office will take Mr. Donnell's place.

Miss Elizabeth Corbett and her sister, Mrs. Rogers, will leave shortly to spend a winter in Florida. Mr. and Mrs. Walter N. Bell will leave for New York City and will call home during their visit.

GOOD MANNERS

It is the best of us who are guilty of the bad manners which we find in the wedding list. It is the best of us who are guilty of the bad manners which we find in the wedding list. It is the best of us who are guilty of the bad manners which we find in the wedding list.

Mr. and Mrs. James Paul Robinson and Mrs. Clifford Jones...

My husband looks like the man who is not the man...

Answer: An excellent idea, this is the best of us who are guilty of the bad manners which we find in the wedding list.

Dear Mrs. Brockman: I am going to have a baby, and it is a boy, I hope...

ADVICE to the LOVELORN

By SEANOR FAIRBAX

As a general rule, I am very much against the idea of taking a hand in any one's love life without being invited.

I am no reason to change my views on this subject in order to make suggestions asked for by one of my correspondents as to how he shall go about offering some unsolicited advice to another man.

This is the situation in which he wishes to take a hand: "I would like to be of service to another person but don't know just how to approach him," he writes.

"I was recently contacted by the second wife during her illness due to complications caused by the children of his previous marriage. His first wife was deceased. He had been having a hard time of it since his wife's death."

Through gossip I heard how terribly neglected she was, and one day I approached her husband and told him how very unreasonable he had been and how unreasonable to desert his wife like that.

"I was, in fact, told to tell my husband that I had been having a hard time of it since his wife's death."

My husband is named for his father, who is living, so my husband is "Dad"...

Gunners Midgets Defeat Midland 7-3 In First Game OMHA Semi-Finals Playdowns

The Belleville Gunners midgets will take a second game to be played in the second game of the second OMHA semi-final playdowns at Midland on Saturday night.

The Belleville Gunners midgets won the first game by a 7-3 score over the Midland midgets in the first game of the semi-final playdowns at Midland on Thursday night.

The second game of the series will be played in Midland on Saturday night.

It was good hockey for the Gunners having the edge on territorial play. They scored twice in the first period and then scored a couple of goals in the second period.

The Midland midgets had a goal in the first period, but they had not scored with a fighting snap in the first four minutes of the first period.

\$70,000 Damage Caused by Fire, Firemen Overcome

Montreal, Feb. 26 (CP)—Damage estimated at \$70,000 was caused today by a fire which destroyed a two-story structure housing a retail store and a restaurant. The fire broke out in the restaurant and spread to the store. Firemen arrived within five minutes and fought the fire for about an hour. The fire was caused by a gas stove in the restaurant. The store was a clothing store and the restaurant was a small eatery. The fire caused the loss of many items, including clothing and food. The firemen were praised for their quick response and for containing the fire before it spread further.

The Movie Column

By BOB THOMAS

Bellville, Feb. 20 (AP)—Charles Richford has this advice for Hollywood's aging stars: Act your age.

"The movie industry is honest with a paradox. The great majority of its thespian players are under 30, but most of its stars are over that age."

In a survey of the star age,

man, I found that the average age of the top 50 female stars is 34.4 years. Of the top 50 male stars, 40.7 years.

Valencia, who Richford says is to go for an Academy Award for her part in "The Sign of the Cross," is a good illustration of this. She is a bit of a situation, for the public and the press.

"Too many stars have their careers on personality alone," he told me. "When the stars age, their personality fades and they slip into obscurity. These average actresses and actresses should try to turn on the personality and start acting—on their own."

When M.G.M. brought Richard Dix from the stage 30 years ago, he was put into leading man position against his will. An American girl who returns to Dix into any goal, he made the transition to

The actor has long planned for middle-aged love on the screen.

"The reason more people from 35 to 55 don't go to the movies is that they get tired of seeing young love on the screen all the time. They want to see mature love for a change."

"The success of 'The Sign of the Cross' proves that. Fredric March and Myrna Loy were great because they played their own age."

Charles is still waiting for producers to cast him in a love story. And if they want to put Myrna Loy opposite him, it's fine with him.

He and his wife, Myrna Loy, are still and sweet.

Law Ayres and Jane Wymann at a Screen Guild Air Show in London.

It might be serious between them. "Clark Gable, who doesn't like to make movies, coming out of the last scene of 'Any Number Can Play' and doing a pantomime of striking the script off his hands and feet."

Frank Sinatra and Judy Garland hitting shop over lunch in the M.G.M. commissary.

Incidentally, the commissary is a place where you can get a hot date.

Marlene Dietrich showing lovely Calvert how to do a catwalk scene for "Rope and Suede."

It is a stretch to claim that jumping is a tournament. Skilled players in a championship match can be seen to the best. As in the case of the best of the best.

Pontiff Grieves For World Peace As Decade Ends

Vatican City, Feb. 25 (AP).— Pope Pius XII entered his 60th birthday on his 60th birthday, but he was greatly troubled over the world's peace for the past decade. He said the first decade of his reign has been the most troubled.

On March 3, 1936, when 62 candles lit solemn candles in the choir of St. Peter's Basilica to mark the 60th birthday of Pope Pius XII, on the throne of the papacy, the black clouds of the Second World War hung menacingly over the world.

Unified Europe Sole Means Of Preventing War

Churchill has just said that the United States in the war, he argued that the post-war world must not permit threats to liberty and the integrity of nations, oppression of minorities, slavery, monopoly of riches, total warfare, an armaments race or religious persecution.

He said that the only way to prevent war is to have a unified Europe. He said that the only way to prevent war is to have a unified Europe.

Marmora Team Eliminates Campbellford

The league leading Marmora aggregation ousted their local rivals on Friday night before a new capacity crowd. The visitors turning in an effective display of one-way hockey, piled up a commanding lead in the first two periods, and came back in the final frame to five home six markers.

The local boys fought hard to avoid a shut-out, but could not pierce Marmora's stout defence to get a direct shot at goal.
